

**PIGTAIL LC/APC 9/125 SM G657/2m - optický pigtail LC/APC,  
9/125/900/G657, LSZH, dĺžka 2m**

Code: [11HYU0356](#)

A 2-meter, 0.9 mm diameter fiber optic pigtail manufactured from single-mode, simplex fiber optic cable terminated on one end with an LC/APC connector. The SILVER class ensures excellent transmission and optical properties (connector insertion loss IL below 0.3 dB). The cable sheath is made of halogen-free LSZH (Low Smoke Zero Halogen) material, which does not emit harmful gases in the event of a fire. The pigtail can be used in fiber optic joints, distribution boxes, junction boxes, and subscriber outlets. The G.657A1 fiber used is characterized by reduced macrobend attenuation, and the minimum bend radius is only 10 mm. The G.657A1 version is compatible with and can be combined with the commonly used G.652D fiber type.

**Data:**

- Connector: LC/APC x 1
- Fibers: G.657A1
- Length: 2 m
- Minimum bending radius: 10 mm
- Cable outer diameter: 0.9 mm
- Outer shell material: LSZH
- Shell color: yellow
- Class: SILVER
