

JXP Orange - 75 Ohm - 1200 MHz

The JXP Orange pads are for installation in all DKTDANLAB MIDI platform AB- and AA-Series amplifiers and AO-Series optical nodes.

- Can be used in two different positions in the MIDID platforms providing either attenuation or tilt.
- Inserted in two ways (by rotating 180°), providing the same performance
- Offered in 1 dB steps, in a range of 1-26 dB

Type	Attenuation (dB)	Tilt (dB)	Type	Attenuation (dB)	Tilt (dB)
