

NANOFLOW RAPID

Mandatory parts for usage

Adaptor plate kit

You can choose adaptor plates for fiber sizes between 0.8 - 4.5 mm.

IMPORTANT

Remember to purchase MAX steel drive wheel (Item no. 103-190923035) when using adaptor plates for 3-4.5 mm. This wheel not included in the kit.

Recommended accessories for usage

Lubrication

We recommend FlowLUB 5000 for micro cable from 3.0-4.5 mm.

Utilization of lubrication during fiber blowing increases blowing distance by a factor of 2-3.

Midi drum rack

We recommend a drum rack for easy, safe roll out of microfiber. Easy to transport and secures the fiber.

Sponges for duct cleaning

For micro cable from 3.0-4.5 mm, clean duct with sponges before installing cable.

If you are in need of competent feedback on your fiber blowing project, do not hesitate to contact us.
