

high pass filter 85MHz

General for all DKT attenuators and filters

The compact DKT COMEGA attenuators have very accurate attenuation, are easily mounted and very durable for both outdoor and indoor installation. All of the filters are designed with a free rotating nut, allowing installation without twisting the cable.

Furthermore, the connectors are plated with a nickel-tin alloy, ensuring minimum corrosion over time and reducing the need to retighten connectors across the cable network to near zero for the product's lifespan. This is a common cause of error in cable networks and many hours per year can thus be saved.

85MHz high pass filter

High pass filter with a high rejection in the stop band. Used for filtering undesired interference in the return path.

Other pass/stop combinations are available upon request.

Type	Item no.:	Data
HPF 85	51005	Pass 87 - 1500 MHz Stop 5 - 65 MHz

Screening efficiency: Class A (EN 50083-2)
 Return loss: 87 - 1500 MHz > 18 dB - 1.5 dB/oct.
 Exceeding Grade 2 (EN60728-4)
 Insertion loss: 5 - 65 MHz > 45 dB
 87 - 1500 MHz < 1.5 dB
